Governance Form A: Guidelines
Effective August 1, 2012

Governance Form A is designed to be used by graduate units when proposing certain types of Minor Modifications to graduate curriculum for approval through university governance. The Minor Modifications for which this form should be used are listed under Governance Form A: Procedures.

Normally, each Governance Form A should address changes to one program or proposal. For example, two separate forms should be used to propose changes to two separate programs (even if located in the same graduate unit), or to propose changes to the same program some of which are to go into effect on one date and the rest on another date. In some cases, proposing changes to different degree levels in one program (e.g. MA and PhD) using separate governance forms may be advantageous.

IMPORTANT: In order to guarantee inclusion in the SGS Calendar for the following academic year, proposals must have final Faculty approval by your Faculty’s calendar deadline.

Substantial Changes: “Requirements that differ substantially from those existing at the time of the previous cyclical program review” (see UTQAP) are considered Major Modifications; for Major Modifications, please contact your FGO.

Revised Calendar Entry: Attach a Calendar entry showing only the changes being considered in the proposal, using the “Track Changes” feature in Word. Clean and current Calendar entry templates are available from the SGS website. Do not accumulate other changes in the Calendar entry that have been proposed/approved earlier in the Calendar production cycle. Instead, use a fresh Calendar entry template. SGS will accumulate all changes made and update the final Calendar entry accordingly. Do not submit revised Calendar entries that require governance approval directly to SGS; your FGO will forward them to SGS by way of the Graduate Curriculum Tracker (GCT).

Effective Session Date: The Faculty Graduate Dean’s Office and SGS reserve the right to alter the effective session date. Proposals are effective no sooner than the beginning of the following session. Most program changes, including name changes, are effective as of September of the following (or later) academic year. Retroactive proposals require SGS approval.

Admissions changes: The effective date for a change to an admission requirement that is approved by the SGS Calendar deadline in one academic year would be September of the next year. Students who are offered admission to a program commencing September the next year would be the first ones affected by the change.

Program changes: Students have the right to follow the program requirements in place at the time of initial registration. The effective date for a program change that is approved by the SGS Calendar deadline in one academic year would be September of the next year, with one exception. If the change eases program requirements, e.g., reduces the number of courses required, then the effective date may be “immediately” and it may be offered as a choice to all students already in the program. If the program change makes the requirements more demanding or merely does not ease then (e.g., if it increases the number of courses required, or changes which courses are required but not their number), then the change would be in effect for the following September and will only be in effect for students newly admitted that September and thereafter.

Requests for retroactive application of a proposed change to earlier cohorts of students will require SGS approval. Please contact: Erin McMahon, SGS, Governance & Policy Officer; 416.978.7709 erin.mcmahon@sgs.utoronto.ca
